

## You'd never try this without training. Driving's no different.

Anyone applying for their first learner permit for a car from 4th April must complete Essential Driver Training (EDT) with an RSA-registered Approved Driving Instructor (ADI) before sitting their test. EDT gives you a framework for your learning, which, along with supervised practice with your sponsor, gives you the experience to make the road safer for all of us. For details, and to find your local ADI, visit [rsa.ie](http://rsa.ie).
