Important Notice regarding end-of-series vehicles

Owing to the very exceptional nature of recent events concerning COVID-19 and its impact on the economy during 2020 and 2021, the Road Safety Authority has decided to make available a 12 month extension for end-of-series commercial vehicles with derogations that were due to expire in February 2021 (vehicle category M2, M3 and N), subject to the following conditions:

- An extension will only be provided to vehicles that have been granted an end-of-series derogation by 21 February 2021, i.e. new applicants will not receive an extension.
- Applications for an extension must provide the Vehicle Identification Numbers that will be verified against the State's end-of-series records.
- A list of extended derogations will be provided by RSA to the Revenue Commissions for the residual unregistered stock.

Applicants meeting the above criteria, and requiring an extension can submit a formal request to VehicleStandards@rsa.ie

Applicants wishing to avail of this extension must provide the following:

- A copy of the RSA letter granting the original end-of-series derogation
- A Microsoft Excel spreadsheet, completed in the **prescribed format**, listing all vehicles for which an extension is sought.
