

# Driving Licence Eyesight Report Form

To drive you must meet certain medical fitness standards. For this purpose vehicles are classed as Group 1 and Group 2. If you are applying for a vehicle in both Groups (See note 2 overleaf) please tick Group 1 and 2 on this form. Where an applicant meets the medical criteria for Group 2 vehicles, they will automatically meet the medical criteria for Group 1 vehicles.

## Part 1.

### Driver Information:

Applicant Name:

PPSN

Date of birth

Day Month Year

Driver number (if available)

### (Please X the appropriate box)

I wish to undergo an eyesight test on foot of my application for a learner permit/driving licence as required by the Road Traffic Acts.

My application is for a driving licence/learner permit as a driver of a (See note 1 overleaf).

Group 1  or Group 2  vehicle.

### Applicant's Signature

(To be signed in the presence of your Medical Practitioner/Optomtrist)

Day Month Year

This form must be submitted to National Driver Licence Service within one month of its completion by a Medical Practitioner or Optometrist.

## Part 2: To be completed by a Medical Practitioner or Optometrist whose name is on the General Register of Medical Practitioners or on the Register of Optometrists in Ireland.

I, the undersigned registered medical practitioner/registered optometrist (delete as appropriate), report that:

- The applicant has signed the declaration in my presence
- I have examined the eyesight of the applicant by reference to the prescribed standard and in my opinion, the applicant meets the prescribed eyesight standard set out for vehicles in the Sláinte agus Tiomáint driver fitness medical guidelines for (Please X the appropriate box(es) below):

a) Group 1 vehicles

Yes  No

b) Group 2 vehicles

Yes  No

c) Needs to wear corrective lenses to meet the standard set out overleaf

Yes  No

My opinion, following the eyesight examination, is that the applicant (INSERT APPLICANTS NAME IN BLOCK CAPITAL) \_\_\_\_\_ is fit to drive vehicles of the Group indicated.

### Signature of Medical Practitioner or Optometrist whose name is on the register in Ireland

Day Month Year

### Stamp of Medical Practitioner or Optometrist whose name is on the register in Ireland

### Medical Practitioner or Optometrist Telephone Number

Please have your medical practitioner or optometrist initial any alteration or change made in completing this form. This is important in assessing the validity of the document presented.

# Driving Licence Eyesight Report Form

**EXPLANATORY NOTES** An eyesight report form is not required where a medical report is provided unless otherwise indicated by your GP.

1. For medical fitness standards vehicles are classed as being in Group 1 or Group 2. The Table below describes which vehicles are in Group 1 and in Group 2. Further information on each licence category can be found online at [ndls.ie](http://ndls.ie) or on the licence application form.

be met; in such cases the driver should undergo examination by a competent medical authority to demonstrate that there is no other impairment of visual function, including glare, contrast sensitivity and twilight vision. The applicant should also be subject to a positive practical test.

E. After any recently developed diplopia or after the loss of vision in one eye, there should be an appropriate adaptation period (of at least six months), during which driving is not allowed. After this period, driving is only allowed following a favourable opinion from the eyesight examining doctor or optometrist.

Group 1 Vehicles and Licence Category	Group 2 Vehicles and Licence Category
AM 	C 
A 	C1 
A1 	CE 
A2 	C1E 
B 	D 
BE 	D1 
W 	DE 
	D1E 

2. The following is general guidance for the medical or optical professional carrying out the eyesight test. This advice will be superseded by guidance set out in the *Sláinte agus Tiomáint* document which represents the most up to date information on medical fitness standards for drivers in Ireland. All applicants for a driving licence shall undergo a visual acuity and confrontation visual field examination to ensure that they have adequate eyesight for driving power-driven vehicles. Where there is reason to doubt that the applicant's vision is adequate, he/she shall be examined by a specialist (an ophthalmologist, or other medical practitioner with a special interest in defects of eyesight or optometry). At this examination attention shall be paid, in particular, to the following: visual acuity, field of vision, twilight vision, glare and contrast sensitivity, diplopia and other visual functions that can compromise safe driving.

### 3. Group 1 Vehicles, Guidance for Medical Professionals the following applies:

A. Licensing may be considered in exceptional cases where the visual field standard or visual acuity standard cannot

B. The person shall have a binocular visual acuity, with corrective lenses if necessary, of at least 0,5 (6/12) when using both eyes together. The horizontal visual field should be at least 120 degrees, the extension should be at least 50 degrees left and right and 20 degrees up and down. No defects should be present within a radius of the central 20 degrees.

C. When a progressive eye disease is detected or declared, driving licences may be issued or renewed subject to the applicant undergoing regular examination by a competent medical authority.

D. A person who has total functional loss of vision in one eye or who uses only one eye must have a visual acuity of at least 0,5 (6/12), with corrective lenses if necessary. The eyesight examining doctor or optometrist must certify that this condition of monocular vision has existed for a sufficiently long time to allow adaptation and that the field of vision in this eye meets the requirement laid down in paragraph (B).

### 4. Group 2 Vehicles, Guidance for Medical Professional the following applies:

A. The person shall have a visual acuity, with corrective lenses if necessary, of at least 0,8 (6/7.5) in the better eye and at least 0,1 (6/60) in the worse eye. If corrective lenses are used to attain the values of 0,8 (6/7.5) and 0,1 (6/60), the minimum acuity must be achieved either by correction by means of glasses with a power not exceeding plus eight dioptres, or with the aid of contact lenses. The correction must be well tolerated. The horizontal visual field with both eyes should be at least 160 degrees; the extension should be at least 70 degrees left and right and 30 degrees up and down. No defects should be present within a radius of the central 30 degrees.

B. A learner permit/driving licence should not be issued to a person who suffers from impaired contrast sensitivity or from diplopia.

C. After a substantial loss of vision in one eye, there should be an appropriate adaptation period (of at least six months) during which the person is not permitted to drive. After this period, driving is only permitted following a favourable opinion from the eyesight examining doctor or optometrist.

### 5. For more information on medical fitness standards see Medical Fitness to Drive Guidelines on [www.ndls.ie](http://www.ndls.ie)

#### Making an application for a learner permit or driving licence?

Apply online now at [ndls.ie](http://ndls.ie)

There is no need for you to complete paper forms, make appointments or visit an NDLS centre in person. All you need is your Public Services Card and your verified MyGovID for secure access to an online application at [ndls.ie](http://ndls.ie)

Your eyesight report form can be uploaded when you apply online or can be posted after you make your application.
